

# ATTENTION DELAWARE LEGISLATORS

DELAWARE RESIDENTS IN ALL  
DISTRICTS OVERWHELMINGLY SUPPORT  
RENEWABLE ENERGY.

Special interest groups have found a way to destroy renewable energy in Delaware if immediate action is not taken. SB250 will prevent this destruction, save 495 existing renewable energy jobs, and create several hundred new jobs in Delaware.

Delawareans across the political spectrum expect you to do the right thing for the health, prosperity, and progress of all Delaware residents.

# WILL YOU?

Delaware residents vote for legislators who vote for their interests. Once this vote is taken, we will let Delawareans know — LOUDLY — who did and who did not listen to them.

**Legislators may direct their questions to
